WHO WE ARE

The Movement Centre of Manitoba is a privately funded registered charity and the only one of its kind in Manitoba that specializes in **Conductive Education (CE)**, an evidence-based rehabilitation therapy for children and adults living with neuromotor disorders.

CE rehabilitation is a **vital** partner in allied health and wellness, supplementing traditional health remedies. Our programs happen in a group environment which helps reduce experiences of loneliness and isolation often faced by the disabled community.

We believe the movements and activities of daily living can be learned or re-learned through this uniquely rehabilitative approach. We have been helping children and adults live their best lives one step at a time for almost 25 years.

Individuals of all ages, from across Winnipeg and Manitoba, living with neuromotor conditions benefit in many areas including regained mobility and body control, increased confidence and independence, enhanced participation in everyday activities and improved quality of life.

We believe in the full potential of our clients!

OUR GOAL

Our programs are in demand now more than ever!

We help over 100 families and their loved ones every year. Through all the challenges during the last two years, such as fewer fundraisers and increased expenses for additional health and safety precautions, we continued to help our clients live their best lives.

With a return to regular programming, and an ever-growing wait list of over 40 children and adults, we remain committed to our vision of providing affordable access to our unique rehabilitation programming for all Manitobans.

The Centre receives no government funding and relies solely on community partnerships, donations, fundraising initiatives, and grants.

This organization begins and ends with community.

**Your sponsorship is vital to reaching
our record-setting goal of**

\$150,000,

making it possible to help kids like
Lux and Kaiden gain newfound
independence, freedom, and hope!
